

okay so now I'm going to run it for 30 seconds and I'm just going to wait for it to stop us as I've noticed that I am 9:22 and I'll be buying mad if it doesn't stop because it's I'm very sad is that doesn't work out close my entire terminal and I'll do it again and I also want to run mind while you were speaking so that it can be minimization of the number of different times and both of them are run it's clearly been 30 seconds to do a thing where you just push your audio record if there's no difference it just won't show up
