Words commonly used in Speech:

as talking about Germany's let's check out Red Sands okay let's see Indiana Indiana so unimpressive anyways the program starts with green so if I can always run some gays what is happening I said open new terminal folder and I just need to make it bigger and this is archivists and then all I need to do is run the sticky command and I'm trying to run gaze detection for things so if I do this for no it's Eli testify so we can make it by welcome to harvest would you like me to play sounds when you are not looking straight at the camera please type y or n what happened when I actually try to open up the gayest thing I should make this case insensitive thanks for letting me know I will not play a sound during the session but I will show you a graph of where you looked afterwards okay now here's your task I want you to imagine a project you really like it could be earlier this project or your favorite personal project imagine meeting a very important leader in an elevator and explaining this project to them center now and it says I'm looking center now also although I'm definitely looking center now what is happening it's not saying that I'm looking Center maybe it's cannot detect my eye hello I'm here it should say looking Center make any changes my eye has been detected now look that works trying to do something only when I look outside for like 2 seconds of work and save the Living Center issue unless you look outside for an extended. I'm glad that I did not look for 20 seconds did you see me look left for 20 seconds download okay so now that I muted I'm going to continue to occupy my efforts to fix the gay stuff and it's funny that I'm still continuing to speak that makes sense though let me let me know open up

Key words spoken

as talking about Germany's let's check out Red Sands okay let's see Indiana Indiana
so unimpressive anyways the program starts with green so if I can always run some
gays what is `happening` I said open new terminal folder and I just need to make it
bigger and this is archivists and then all I need to do is run the sticky command and
I'm trying to run gaze detection for things so if I do this for no it's Eli testify
so we can make it by welcome to harvest would you like me to play sounds when you are
not looking straight at the camera please type y or n what happened when I actually
try to open up the gayest thing I should make this case insensitive thanks for
letting me know I will not play a sound during the session but I will show you a
graph of where you looked afterwards okay now here's your task I want you to imagine
a project you really like it could be earlier this project or your favorite personal
project imagine meeting a very important leader in an elevator and explaining this
project to them center now and it says I'm looking center now also although I'm
definitely looking center now what is `happening` it's not saying that I'm looking
Center maybe it's cannot detect my eye hello I'm here it should say looking Center
make any changes my eye has been detected now look that works trying to do something
only when I look outside for like 2 seconds of work and save the Living Center issue
unless you look outside for an extended. I'm glad that I did not look for 20 seconds
did you see me look left for 20 seconds download okay so now that I muted I'm going
to continue to occupy my efforts to fix the gay stuff and it's funny that I'm still
continuing to speak that makes sense though let me let me know open up

**Synonyms to the frequently used keywords:**

happening: {'pass', 'find', 'hap', 'bump', 'occurrence', 'natural_event', 'pass_off', 'fall_out', 'chance', 'befall', 'go_on', 'occ
