you how's it going I think I'm done with the script the whole thing we should I'll call you for a time check it like 5 because I think at 5 we need to actually like start recording the demo / make the presentation okay let us now keep recording and let's take a look at the Corvettes report that is generated and clearly I used that's what I was saying is that do you want the car more than once before we actually saw them in the pot to use slides after this and the main steps are the slides the presentation script and the recording of the three different animals and one constraint I have is that when I meet you at 10:15 I will not have I want to be able to maybe record them over the Gaze at least because the things that we don't really need to have done that I need to be in this room you can also agree to meet me in one of those Ashdown rooms and that way I'll be sure itself after 10 and I can access my room in my other monitor I set up anytime I just don't think it would be possible for me to record the gays singing 26 314 go to then it's fine if I record the gayest thing after 10 hours will just take me a while finally we can explore whatever system thinks your sentiment is based on the text of your speech what do you so that's it for now that's it for now please come back soon to explore inside from more of your recordings or from others other from any internet video recordings internet video recordings Okay Okay cool so we're done with that and now I have to keep speaking for about 15 minutes it seems like and that certainly is a lot of time so I will keep speaking about something and something we're going to speak about witches how to Sorry by the way should I send you a link to the garbage report scripts you can include it as I don't think we should care too much really easy for you to do this so then she were free sample and have the filler word plot and the highlighted transcript in different pages straight so I'll put it so now I'm going to work on the final presentation slides can I ask you one question about them
